Internal Assess

Question: If any comment/suggestion?

Response 39	I want the college to conduct classes for using software tools like excel & power point for better understanding of them so that students can more proficiently use the tools in their academics as well as for personal purposes. I also emphasize on providing knowledge about various statistical tools and how and how to use them effectively in assessments. Training on how to use these should be particularly reflected.

**Any Suggestion?**

Curricular management regarding course can be done a bit better. Faculty for an hour could covering course and assignment to achieve target of securing everything altogether. Also, Give the journal as early as possible. Give journal 1000-1500 words. Try to involve the teaching in pharmaceutical-1 as it is the base of Pharm.D. Also, the suggestions, the suggestion. Give content also and after complete chapter or topic. The suggestions... Nothing. Should have more Good of student students related their related subjects. Increase the curriculum activities.

No.

Good.

No Suggestion..

Personally as a student, I have two suggestions about library.

1. The sitting capacity of library is about of around 100 students. This needs to be increased upto capacity sufficient for us.
2. The books issued under scheme of BOOK LOAN have relevant about syllabus, but among issued books only few have content which covers over all syllabus of that particular subject, but remaining contain that stuff which is irrelevant to our syllabus.

There should be more space for bags.

Requirement of enlarging the reading area

No.

I am much satisfied by Library services provided by MCCOP, Nigdi

Increase number of seats.

It's small good.

I think number of chair in library should be increase, because I feel every student who comes to library should get place for sitting.

No

1. Please if possible increase the library reading area.
2. Improve the WIFI speed and range as it is almost never working or having internet connection.

No, everything is amazing about library staff.

Increase the number of reference book.

No.

Increase the staff.

Increase the staff.

Staff is insufficient.

It will be very useful if college authority provide separate college email ID to each PG student so they can remotely access different journals and can use that college email ID to use or purchase different utility software required for project work at discounted price i.e. office 365 and other email ID can be use for broadcasting announcement and communication inside college.

Library should be equipped with plagiarism checker tool like turnitin so every PG student can use it to for research and review article work.

If possible expand the library area (reading room area).

That librarian mam doesn't help and cooperate and speaks very rudely.

No.

You can also add some novels and story books, which students can issue for reading something different from the academic curriculum.

Not applicable.

Very good
